scanning

Ultra -Green

- CHISON holds it's position clear "Save Power, Save Environment".
- Scanning for **180mins+** in a single charge.
- **36h+** on stand-by mode guarantees a more reliable diagnosis.

More than Portable

Seamless Transformation from Portable to Cart-Based

Ultra - Connectable

- Live 4 probe ports bring a quick shift between different clinical scenarios.
- Designed to cater all applications & bring complete solutions for your imaging.

Ultra - Flexible

- Dedicated trolley with height adjustable.
- Featuring 4 transducer connectors, SonoAir can seamlessly transition into a cart-based ultrasound system.

Bag

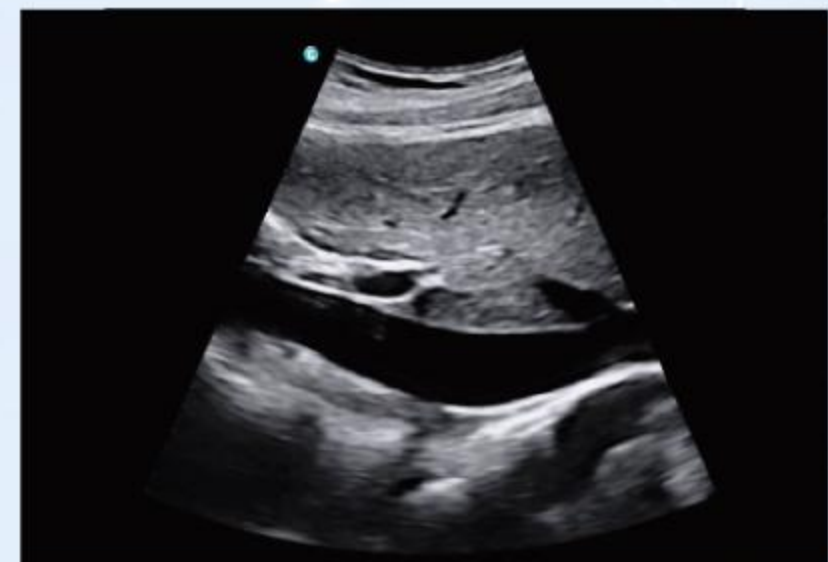

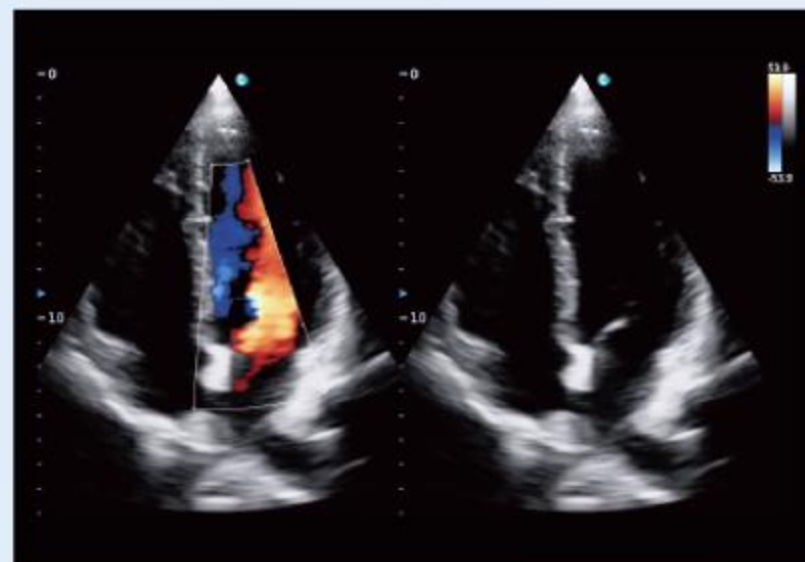

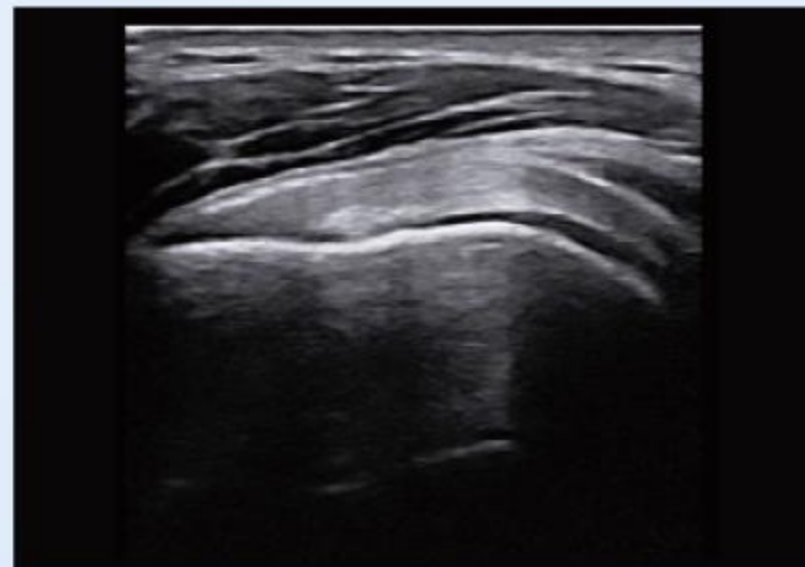

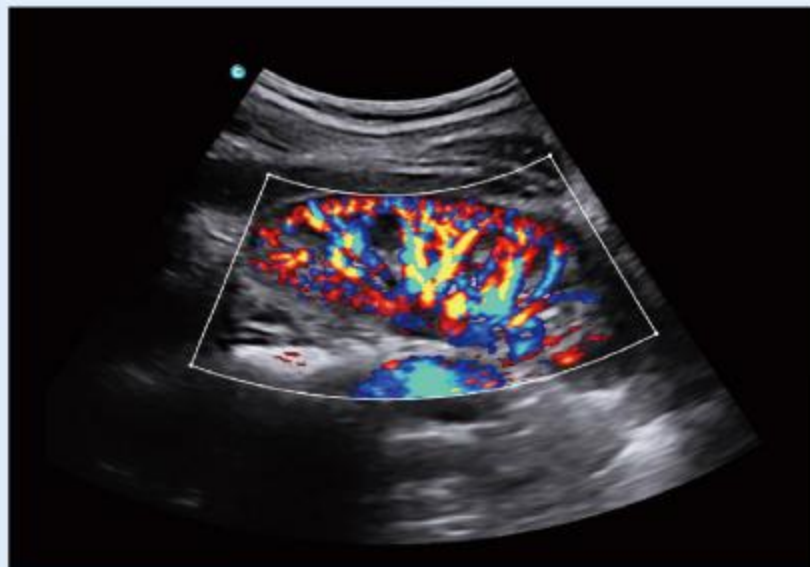

3D Ultra - Approachable

- Innovative and interactive 3D UI/UX
- Increased efficiency and diagnostic confidence.

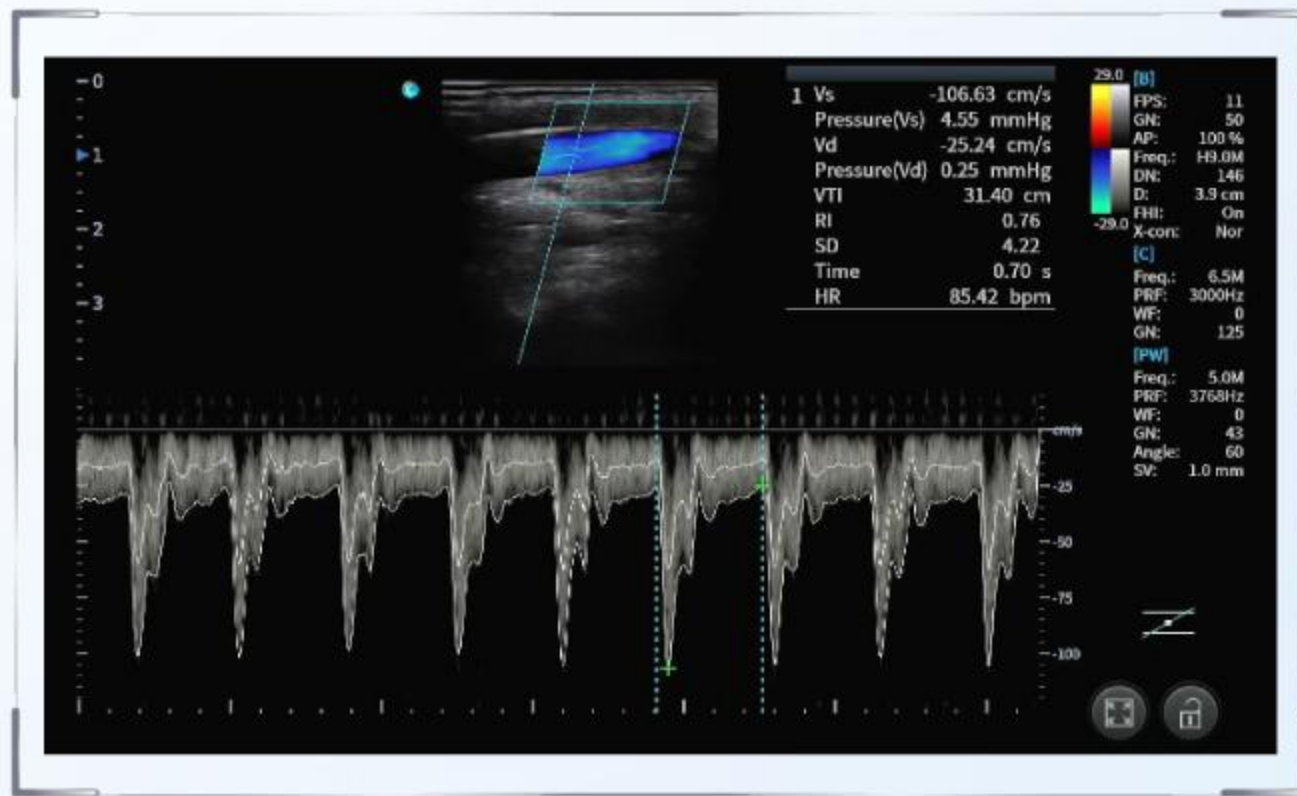

Ultra - Touchable

- 14.1" of touchscreen with highly sensitive gesture control makes ultrasound imaging a new experience and reduces key strokes.
- Built-in trackpad promises comfort and ease of use.
- Unique finger print lock delivers the promised data protection and safety.

OUTSTANDING FEATURES

Quadplex

In PW mode, the 2D,Color,PW and spectrum automatic envelope functions are dynamically displayed in real time

Auto Breast

AutoBreast can automatically help define the boundaries of the lesion on breast and give accurate measurement results.

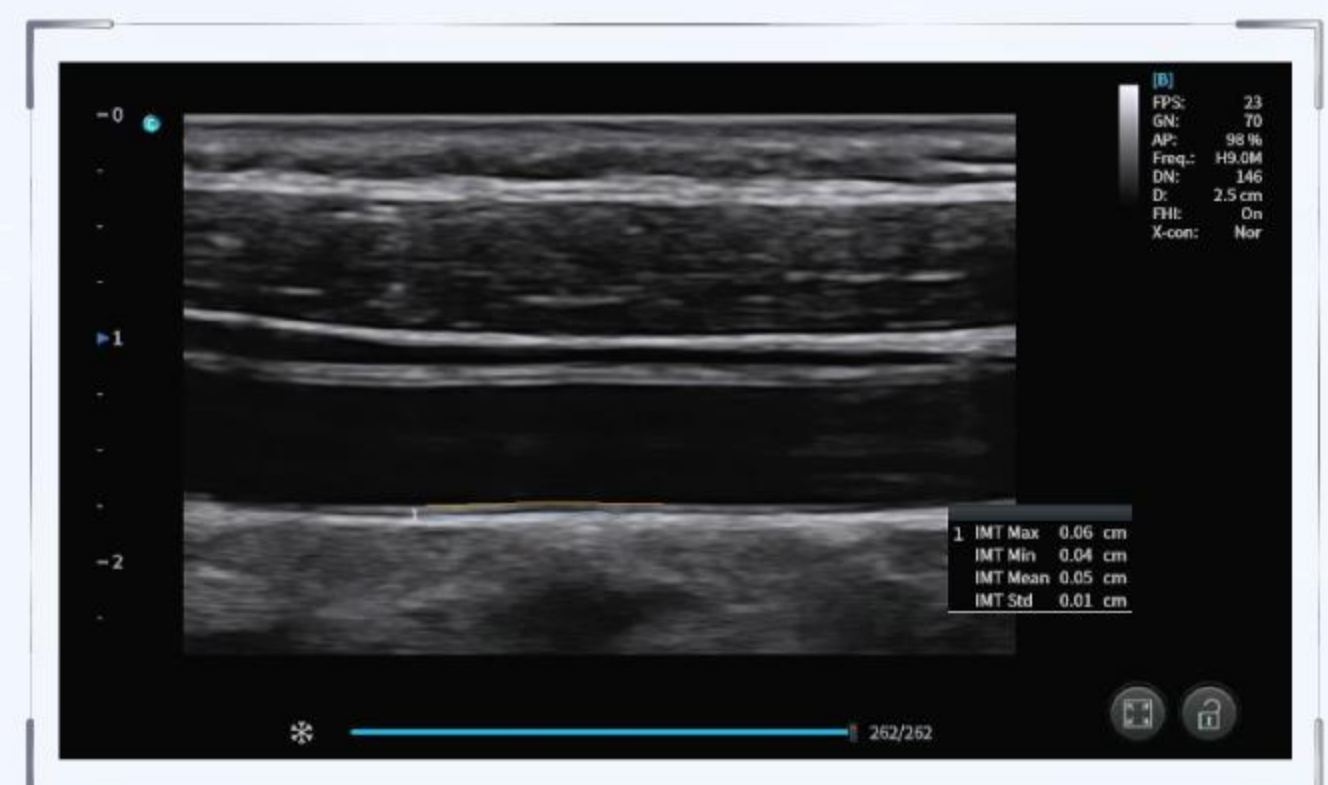

Auto Thyroid

AutoThyroid can automatically help define the boundaries of the lesion on thyroid and give accurate measurement results.

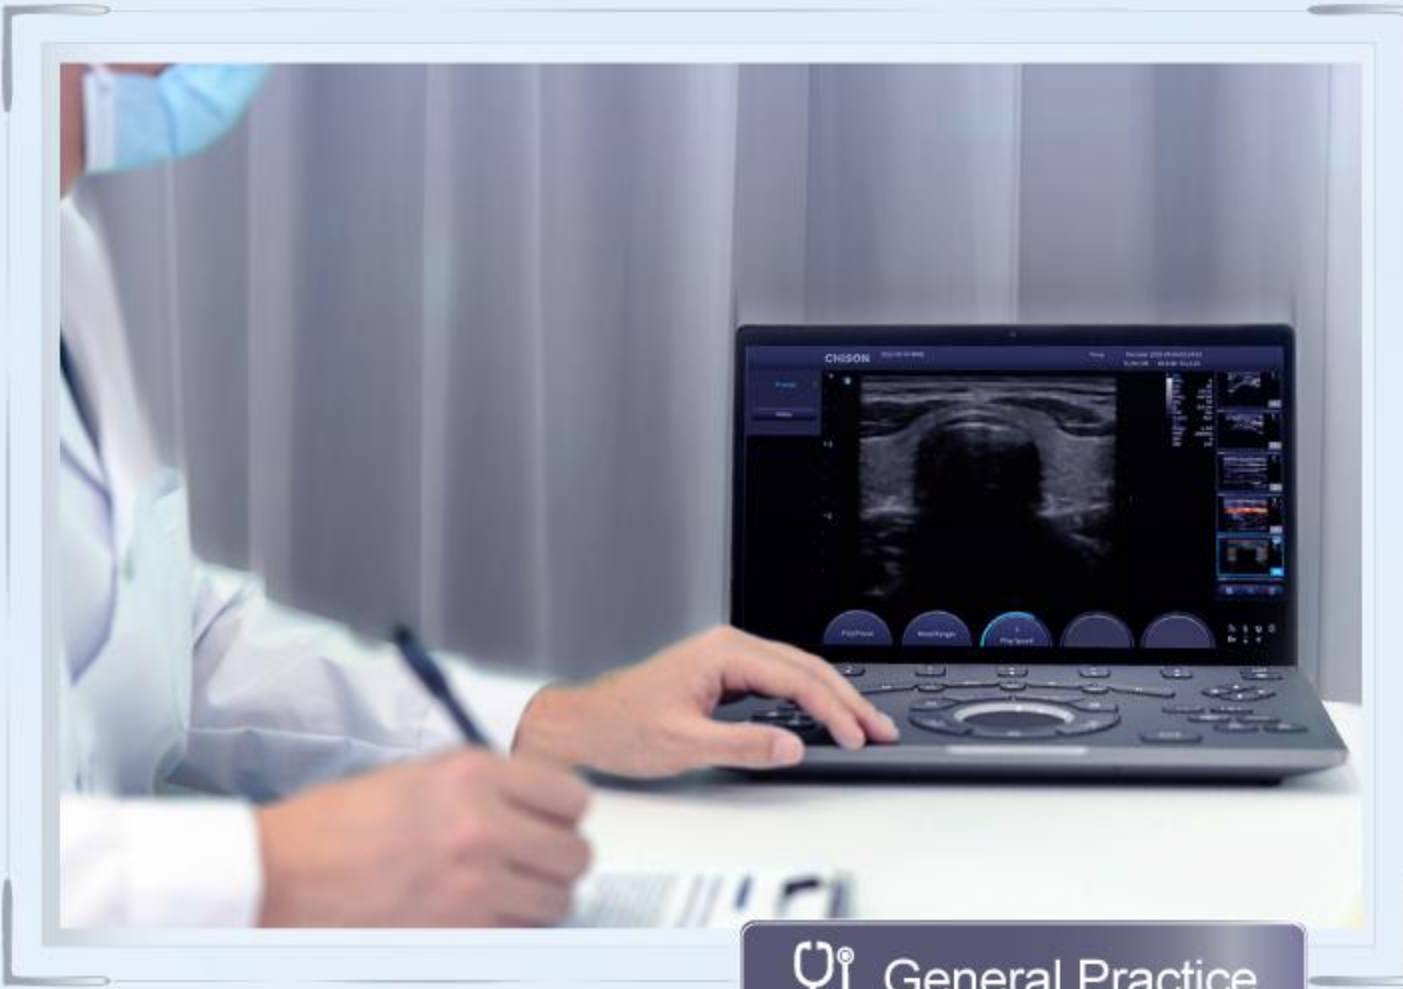

Auto IMT

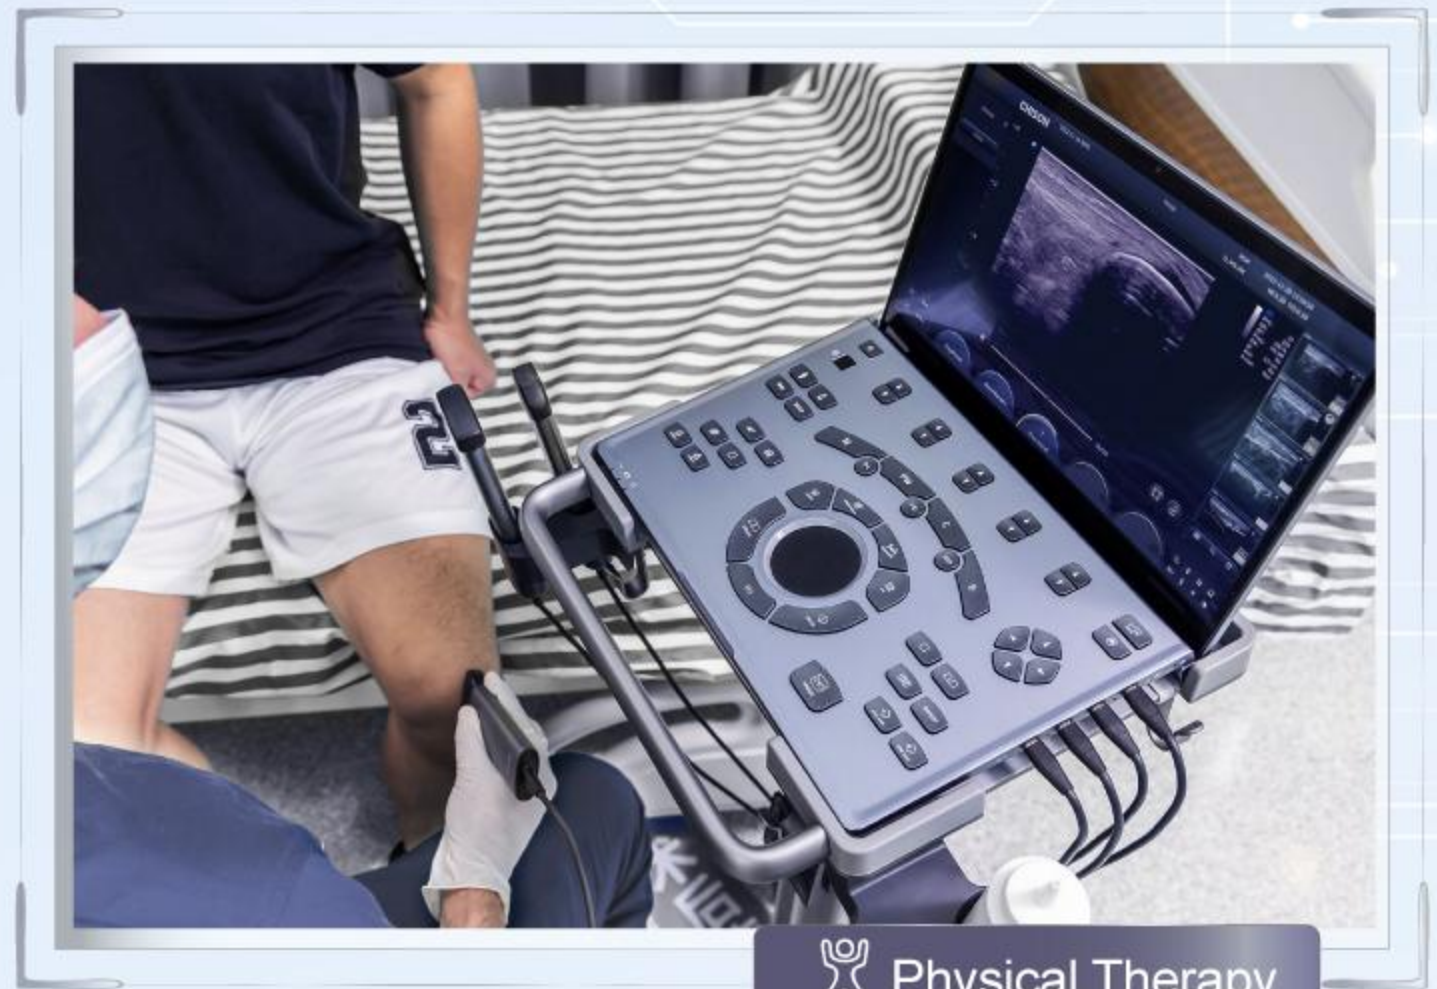

Automatically obtain the maximum, minimum and average values of the intima-media thickness in the target area, and make measurement more accurately.
